

FOR A HOTEL MEETING

Staff lose cash tips. This costs the hotel nothing to try.

Guests can still leave cash on the desk. Or they open the camera already on their phone, scan a QR, and tip the person who helped them. There is no guest app. The hotel never holds the money.

Founded by **Rosalie Dudkiewicz** and **Dariusz Dudkiewicz**.

THREE STEPS

01

Add staff

The property adds each person. Each one gets a unique tip code.

02

Print their QR

A desk card sits where cash tips are left. One person, one QR. Not a hotel-wide code.

03

Guests tip that person

Cash or scan — whichever is convenient. The tip goes to that person.

THE OFFER

Free 60-day trial

About 3% from the tip

Hotel never holds funds

No monthly fee

No guest surcharge

No guest app to install

WHO IT IS FOR

Hotels first. The same card also works for tour guides and cruise staff. The ask today is one Tampa property for the pilot.

THE ASK

Try it on one property. Add staff, print their cards, and see if guests use them.
